

## The Wise and Ethical Leader

Dr. Tony Aretz  
Academic Vice President  
Christian Brothers University

### ABSTRACT

Media coverage of recent ethical lapses suggests there is a growing need for a new leadership philosophy grounded in ethical and spiritual principles. This presentation will provide an overview of how “The Wise and Ethical Leader” counters societal trends that seem to emphasize individualism over the common good, scientism over spiritualism and hedonism over virtue. A case will be made for inspirational leadership grounded in integrity and wisdom.
